## LEGERO UNITED CAMPUS, FELDKIRCHEN NEAR GRAZ

The legero united campus in Feldkirchen near Graz has been the new headquarters of legero united since January 2020. The two ring-shaped building complexes are a place of dialogue with customers and partners. The smaller of the two circular buildings is home to legero united's largest outlet store.

It was particularly important to the architects Dietrich | Untertrifaller that everyone feels comfortable at the campus and employees are proud to work here. Sustainability was also a key concern: sophisticated technology and the use of high quality, sustainable building materials characterize the design of the campus.

The energy-efficient ventilation system from PICHLER quietly and continuously provides the campus with fresh air.
