

# OBJECT OF THE MONTH

## ÖAMTC

## HEADQUARTERS ÖAMTC VIENNA

With its strikingly dynamic architectural language, ÖAMTC's new headquarters is located right on the Südosttangente, Austria's busiest road, in the centre of a heterogeneous, mainly commercial complex of buildings, and directly adjacent to an underground station.

For the first time in the 120 years of the Club's history, the ÖAMTC has bundled all of its member assistance and emergency services and a modern working environment for 800 employees into a single location.

27,000 square metres of floor space go to make up this innovative and functional meeting and service centre with an ingenious ventilation system. PICHLER components ensure effective fire protection and perfect interior climate control.

With its new ÖAMTC Mobility Centre, the Club has taken a significant step into the future, and erected a structure which impressively embodies the ÖAMTC motto, "Mankind is the Focus of Everything we Do."

### DATA & FACTS

Location: Vienna

Completion: 2017
