

# OBJECT OF THE MONTH

## RESIDENTIAL BUILDING ZEIT:RAUM

The ZEIT:RAUM residential project lies in the midst of a dignified area with perfect infrastructure near the Wörthersee. The excellent location, the timelessly beautiful architecture, high-quality interior design and energy-efficient construction are the cornerstones of this residential development project.

The energy-efficient design „A ++“ (passive construction) ensures a healthy, sustainable lifestyle with low energy consumption. With 52 built-in ventilation units (LG 150) from PICHLER, the project has controlled domestic ventilation with heat recovery.

### AWARD:

The ZEIT:RAUM project **twice received the klima:aktiv „Gold“ award**. Both building units achieved 986 and 959, respectively, out of a maximum of 1000 points, earning the **best rating for multi-family dwellings** in Carinthia.
